## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art, either singly or in combination fails to anticipate or render obvious, the limitations of:

...selectively etching the exposed upper portions of the hard mask and the spacer using the insulating layer as an etch mask until the top surface and the sidewall of the gate electrode are exposed; and

forming a metal layer on the exposed top surface and sidewall of the gate electrode, as required by claim 1; and

...forming an etch stop layer on the first silicide layer to be extended so as to cover the hard mask and the spacer;

forming an insulating layer on the etch stop layer to selectively expose a portion of the etch stop layer that overlaps upper portions of the hard mask and the spacer; selectively etching the exposed portion of the etch stop layer and the upper portions of the hard mask and the spacer disposed under the etch stop layer until the top surface and the sidewall of the gate electrode are exposed; and

forming a metal layer on the exposed top surface and sidewall of the gate electrode, as required by claim 12.

It should be noted that the art teaches the formation of silicide on a structure similar to the claimed invention but lacks the additional etch step to expose the sidewall of the gate electrode, prior to the formation of a silicide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Walter L. Lindsay, Jr. whose telephone number is (571) 272-1674. The examiner can normally be reached on Monday-Thursday.
